REXBURG
America's Family Community

**RESOLUTION AMENDING
THE COST SHARING REIMBURSEMENT
FOR THE REPLACEMENT OF SIDEWALK, CURB AND GUTTER**

Resolution 2020 – 25

WHEREAS, this new resolution replaces resolution 2012-05

WHEREAS, on the 18th day of November, 2020, the City Council was presented an engineering proposal to amend the cost sharing formula for the **replacement of** sidewalks, curbs, and gutters; and

WHEREAS, the costs have risen over the years without any change to the cost sharing formula; and

WHEREAS, the property owners are required to maintain the sidewalks, curbs, and gutters adjacent to their properties in the City of Rexburg; and

NOW THEREFORE, by resolution duly adopted on the date first above written, be it resolved by the Mayor and the City Council the following changes to the cost sharing formula for the replacement of sidewalks, curb, and gutters:

1. **Sidewalk** – change from \$1.75 per square foot to **\$2.25**
2. **Curb & gutter** – change from \$7.70 per linear foot to **\$10.00**
3. **Portions of Driveway required to be replaced to meet ADA standard**– \$2.25 per square foot

WHEREAS, The City Council desires to utilize a separate cost sharing formula for the replacement of sidewalks, curbs, and gutters (cost sharing is excluded on driveway and apron areas outside the sidewalk area, with the exception of portions of driveway replaced to meet ADA standard) on properties added to a Local Improvement District (LID) in conjunction with a street project.

NOW THEREFORE, by resolution duly adopted on the date first above written, be it resolved by the Mayor and the City Council, the following cost sharing formula for the replacement of sidewalks, curb, and gutters on LID's:

1. **Sidewalk** – 30% of the contractor final sidewalk cost per square foot
2. **Curb & gutter** – 30% of the contractor final curb & gutter cost per linear foot
3. **Portions of Driveway required to be replaced to meet ADA standard** – 30% of the contractor final cost per square foot

WHEREAS, in an effort to provide landscape strips for snow storage and mailboxes, create better ADA mobility on property owner owned sidewalks, and reduce the road widths to create traffic calming, a City council may elect to reduce the width of a street during reconstruction on an LID at the time of creation of an LID. If such reduction occurs, the City Council may choose to

pass further savings that would come from lower street reconstruction and maintenance costs onto the property owner by considering a cost sharing formula for the replacement of sidewalks, curb, and gutter on an LID not to exceed:

1. **Sidewalk** – 50 % of the contractor final sidewalk cost per square foot
2. **Curb & gutter** – 50 % of the contractor final curb & gutter cost per linear foot
3. **Portions of Driveway required to be replaced to meet ADA standard** – 50% of the contractor final cost per square foot

WHEREAS, any increased width in the new landscaped area adjacent to the new road constructed during the LID would be the responsibility of the property owner to reconstruct, move mailboxes into, and maintain

WHEREAS, such cost sharing reimbursement does not apply to the installation of new sidewalk (see resolution 95-6) or new curb and gutter whether part of an LID or not.

RESOLVED this 18th day of November, 2020; City Council, City of Rexburg, Idaho.

SIGNED BY: Jerry L. Merrill, Mayor

ATTEST: Deborah Lovejoy
City Clerk
